

The online doctoral registration guide

The online registration can only be carried out if and only if the validation on Adum has been carried out :

- **case of doctoral student who has already been registered at the University of Lille :**

1. You have to get in your **student ENT** (on the student account (firstname.surname.etu@univ-lille.fr) then login and click on « register/re-register »

- **case of the doctoral student who has never been registered at the University of Lille :**

1. get to the page : <https://inscriptions.univ-lille.fr>
2. login with the ADUM temporary number (**ADUMxxxxxx**) or your **INE** (if you were already in a French university) and your **date of birth**.

This second way of connecting is also possible for students who are already registered at the University of Lille and who have problems with the first mode of connection.
